

## Dealer Listing Requirements

Dear Valued Partner,

Providing customers with accurate evo retail dealer listings will help ensure the success of your brand as well as best-in-class customer experience across the evo network both online and in-store.

As a valued partner of evo we require the following dealer listing information on your website, where available and based on distribution locations:

- **Brick and mortar retail dealer listings for evo store locations:**  
*Seattle, Portland, Denver, Salt Lake City, Snoqualmie Pass, and Whistler/Blackcomb (see details below)*
- **Online dealer listing directing customers to your brand page on evo.com:**  
URL Format: <https://www.evo.com/shop/your-brand-name>
- **Product-2-Product Deep Linking**  
For deeper product-to-product integrations we provide custom product feeds for all brand partners.

Below is the information for both our physical store locations and online store location pages so that you can provide customers with the correct evo store name, address, phone number, and URL information. Any questions can be directed to Martin Goldman ([mgoldman@evo.com](mailto:mgoldman@evo.com)).

 We integrate with Locally for partners using this technology. Please contact Martin Goldman ([mgoldman@evo.com](mailto:mgoldman@evo.com)) for approval.
