

### OUR PHILOSOPHY

evoFit is designed to provide skiers with a high-quality boot fit that balances comfort & performance for a wide variety of skier types. We stand behind our foot assessment and product selection for each individual.

### OUR GUARANTEE

evoFit is dedicated to providing you with the best possible skiing experience. We assess each customer individually and stand behind our product selection for each rider's ability level, budget, intended use, foot shape, and foot mobility.

Even properly fit boots can cause discomfort during the break-in process, and everyone's comfort level is unique. If we're unable to make your feet happy within three fit sessions, we'll happily exchange your boots for a new pair, or a gift card in the amount of your boot or evoFit program purchase.\*
